

GPRO INSTRUCTOR QUALIFICATIONS

GPRO is a trade-specific green professional building skills training program.

Urban Green Council is developing a pool of instructors who are experienced professionals in the construction industry and are well informed about sustainability issues.

Suggested qualifications for potential GPRO instructors: (* indicates requirement for all GPRO Instructors)

- * Candidate has a passion for sustainability, knowledge of green building practices and a willingness to further his or her knowledge in the field.
- * Candidate must have a minimum of 5 years professional experience in the field of the course being taught (or related experience).
- * Candidate will have received a GPRO certificate for each course he or she intends to teach and received a minimum 85% score on each exam.
- * Prior to starting to teach, instructors will have attended a GPRO instructor training program.
- Candidate is already a qualified trainer in his/her respective organization.
- Candidate has received training in adult education.

Urban Green Council will maintain an ongoing process for reviewing students' grades and instructor evaluations for every class. Instructors will be expected to maintain a consistent level of student engagement and performance.

To apply, please fill out [this application.](#) include a copy of your resume or work/training history along with two references and return to gpro@urbangreencouncil.org.
